Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1-6, 9 and 12 are rejected under 35 U.S.C. 102(b) as being clearly anticipated by Bader (US 1,042,750).

Claim Rejections - 35 USC § 103

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

The factual inquiries set forth in *Graham v. John Deere Co.*, 383 U.S. 1, 148 USPQ 459 (1966), that are applied for establishing a background for determining obviousness under 35 U.S.C. 103(a) are summarized as follows:

1. Determining the scope and contents of the prior art.
2. Ascertaining the differences between the prior art and the claims at issue.
3. Resolving the level of ordinary skill in the pertinent art.
4. Considering objective evidence present in the application indicating obviousness or nonobviousness.

Claims 7-8 and 10-11 are rejected under 35 U.S.C. 103(a) as being unpatentable over Bader in view of Reese (US 3,721,516). Bader is considered to clearly anticipate the claimed invention, except for the claimed portable member, circumferential panel

Art Unit: 3749

member extension, and gas valve housing member. Reese, another gas light assembly, is considered to disclose a portable member, circumferential panel member extension, and gas valve housing member at column 1 line 65 through column 2 line 62. It would have been obvious to one skilled in the art to combine the teachings of Bader with the portable member, circumferential panel member extension, and gas valve housing member, considered disclosed in Reese, for the purpose of facilitating moving of the lamp, allowing a telescoping ornamental design and function, and flow control valve coupling respectively.

Conclusion

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. References C-I, are considered to disclose stands, panels, fuel lines, portable, locked, gas valves, and/or cylindrical fuel containers.
